

ACAP

Austin Competency Analysis Profile

Ophthalmic Assistant

Conducted

January 23, 2009

Validation Panel

Shayla Creamer, Ophthalmic Technician

Eye Physicians of Austin, Austin, Texas

Michelle Wilson, ABO Certified Optician,
NAIT Optical Science

Medical Center Optical, Austin, Texas

Jason Wess, Ophthalmic Assistant

Glaucoma Institute, Austin, Texas

Tracy Johnston, COA, NCLEC, Ophthalmic Technician,
Contact Lens Fitter

Eye Physicians of Austin, Austin, Texas

Carrie Ryan, COA

Richard B. Briggs, M.D. PA, Austin, Texas

Becky Chavez, COA

Austin Retina Associates, Austin, Texas

Katherine Meza, Ophthalmic Technician

Austin Retina Associates, Austin, Texas

Facilitated by

Jennifer Gray, Instructional Designer,

Instructional Development Services

Austin Community College, Austin, Texas

Teresa S. Moore, Instructional Design Manager,

Instructional Development Services

Austin Community College, Austin, Texas

WorkKeys® Profiler

Douglas Mitchell, DDS, Coordinator, Health Sciences

Institute, Continuing Education

Austin Community College, Austin, Texas

Ophthalmic Assistant ACAP
February 2009

Preface

Austin Community College would like to express our sincere appreciation to our business, industry, labor, and community partners who donated their time and expertise toward the identification and validation of competencies in the following Austin Competency Analysis Profile.

Introduction

The ACAP (Austin Competency Analysis Profile) initiative comes out of the Instructional Development Services of Instructional Resources and Technology at Austin Community College. This initiative is ACC's primary source for Competency-Based Curriculum development, providing a connection between our academic and workforce programs and the needs of business and industry.

The ACAP is a process for analyzing an occupation to develop curriculum. The product is a competency list, employability skills, and academic skill levels that have been developed and validated by subject matter experts who perform the occupation. This list will be used to develop programs that address the needs of business and industry by equipping our students with the entry skills required in a workplace environment.

A CAP Process Overview

What are Austin Competency Analysis Profiles (ACAPs)?

Austin Competency Analysis Profiles (ACAPs) are competency lists for academic and workforce programs verified by expert workers, or Subject Matter Experts. These lists evolve from a well-established job analysis process involving business, industry, labor, and community agency representatives from throughout the Austin area.

How is an Austin Competency Analysis Profile used?

Each ACAP identifies the occupational, academic, and employability skills (or competencies) needed to enter a given occupation or occupational area. The ACAP not only lists the competencies but also clusters those competencies into broader units and details the knowledge, skills, and attitudes (competency builders) needed to perform each competency.

Within the competency list are two levels of items: core and advancing. Core items, which are essential for entry-level employment, are required to be taught—the concept of advancing items will only be introduced to students. Advancing items are those needed beyond entry level in a given occupation, and are designated as “Advanced [A].” If core competencies or competency builders are present in an “Advanced” unit, then they are designated as “Core [c].”

Educational institutions may add as many units, competencies, and/or competency builders as desired to reflect local employment needs, trends, and specialties. Local advisory committees are actively involved in the identification and verification of additional items. Faculty members formulate their courses of study using the varied contents of the ACAP. Faculty also monitor gains using many forms of assessment.

ACAP: Ophthalmic Assistant

Ophthalmic Assistant

Ophthalmic Technician

Certified Ophthalmic Assistant

Occupational Competencies

The following Occupational Competencies have been identified and verified by a panel of subject matter experts currently employed in the field of Ophthalmic Assistant. This panel of experts has determined that these skills will adequately prepare students for *entry level* positions in this field. The *Competencies* are grouped into units. *Competency Builders* are included to help identify the knowledge, skills and attitudes students need to perform each competency. These *Competencies* and *Competency Builders* are designed to be the basis for curriculum development to ensure business and industry input that is relative and meaningful to the workplace. These *Competencies* are intended to include all basic, necessary skills for this occupational area, but may be supplemented with additional competencies as faculty and advisory committee members see the need to do so.

Key Terms:

Competency—an observable and measurable behavior that has a definite beginning and end; can be performed within a limited amount of time; consists of two or more competency builders; and leads to a product, service, or decision.

Competency Builders—the skills, knowledge, and attitudes (written in measurable terms) needed to perform a given competency.

Entry Level—position of employment that requires no previous experience, but may require some training and/or specific skills, knowledge, or attitudes.

ACAP: Ophthalmic Assistant

Unit 1	Basic Sciences
Unit 2	Clinical Practice
Unit 3	In Office Procedures
Unit 4	Diseases and Disorders
Unit 5	Pharmacology
Unit 6	Ocular
Unit 7	Professional Role and Development

Occupational Competencies

ACAP: Ophthalmic Assistant

Unit 1 Basic Sciences

Competency 1.1 Determine the health of an eye by using the parts and function of the eye anatomy

Competency Builders:

- 1.1.1 Identify the parts of the eye
- 1.1.2 Explain the production and flow of tears
- 1.1.3 Identify the five layers of the cornea
- 1.1.4 Explain the contraction and expansion of the iris
- 1.1.5 Explain the function of the rods and cones
- 1.1.6 Trace the fibers of the optic nerve to the visual cortex
- 1.1.7 Identify the muscles attached to the eye by name
- 1.1.8 Describe the purpose of the parts of the eye
- 1.1.9 Describe indication of damage/disease to parts of the eye
- 1.1.10 Identify the anterior and posterior segments of the eye
- 1.1.11 Locate the anatomy of the retina

Competency 1.2 Appraise the physiology of the eye

Competency Builders:

- 1.2.1 Explain the alignment of the eyes
- 1.2.2 Describe the role of fixation in visual acuity
- 1.2.3 Explain causes for fixation difficulty
- 1.2.4 Explain fusion
- 1.2.5 Identify the functions of the extra ocular muscles
- 1.2.6 Use appropriate terminology for the physiology and movements of the eye
- 1.2.7 Identify divergence and convergence
- 1.2.8 Discuss the relationship of depth perception to monocular and binocular vision
- 1.2.9 Describe the eye's ability to accommodate focus of an object
- 1.2.10 Determine the effects of intraocular pressure
- 1.2.11 Discuss the function and production of tears
- 1.2.12 Determine the function of the retina

Competency 1.3 Identify characteristics of optics to the eye

Competency Builders:

- 1.3.1 Use appropriate terminology
- 1.3.2 Identify the characteristics of Physical optics
- 1.3.3 Identify the characteristics of geometric optics
- 1.3.4 Determine focal length and power of lens
- 1.3.5 Compare the properties of concave and convex lenses

- 1.3.6 Explain the uses of prisms as they apply to ophthalmology
- 1.3.7 Calculate focal point for both concave and convex lenses
- 1.3.8 Identify problems presented by spherical and chromatic aberration
- 1.3.9 Identify solutions for aberration
- 1.3.10 Calculate transposition

Competency 1.4 Apply other basic light theory applications

Competency Builders:

- 1.4.1 Define Vergence
- 1.4.2 Consider absorption, reflection and refraction
- 1.4.3 Define Snells Law
- 1.4.4 Define Critical angle
- 1.4.5 Explain dispersion and Abbe value
- 1.4.6 Define the speed of light

Unit 2 Clinical Practice

Competency 2.1 Identify the various professions in vision care

Competency Builders:

- 2.1.1 Determine the role of the Ophthalmologist
- 2.1.2 Determine the role of the Optometrist
- 2.1.3 Identify the responsibilities of the Optician
- 2.1.4 Identify the responsibilities of the Optometric Assistant/Technician
- 2.1.5 Discuss the roles of the Ophthalmic Medical Personnel
- 2.1.6 Identify the role of the Ocularist
- 2.1.7 Spell all Ophthalmic personnel correctly
- 2.1.8 Identify the subspecialties in the Optical professions

Competency 2.2 Maintain a professional attitude while attending to customers and patients

Competency Builders:

- 2.2.1 Exhibit friendly, courteous and caring mannerism with all customers/patients/staff
- 2.2.2 Use appropriate phone etiquette
- 2.2.3 Listen to the patient's/customer's concern with a non-judgmental attitude

Competency 2.3 Maintain professional appearance

Competency Builders:

- 2.3.1 Wear appropriate and professional attire (such as closed toed shoes, proper size, proper coverage, etc.)
- 2.3.2 Maintain personal hygiene
- 2.3.3 Avoid use of strong fragrance
- 2.3.4 Wash hands/Brush teeth after smoking

Competency 2.4 Maintain store

Competency Builders:

- 2.4.1 Maintain inventory where appropriate
- 2.4.2 Maintain work station
- 2.4.3 Disinfect/sterilize equipment
- 2.4.4 Calibrate machines
- 2.4.5 Replace equipment bulbs
- 2.4.6 Retrieve specialized equipment for specific situations

Competency 2.5 Maintain accurate record keeping

Competency Builders:

- 2.5.1 Retrieve patient files and records
- 2.5.2 Update files as needed
- 2.5.3 Return files in an appropriate and predictable routine
- 2.5.4 Archive files as needed
- 2.5.5 Apply EMR system to record keeping

Competency 2.6 Obtain patient information for documentation

Competency Builders:

- 2.6.1 Take patient history (medical, social, ocular, surgical, etc.)
- 2.6.2 Use appropriate Ophthalmic terminology, acronyms, and abbreviations
- 2.6.3 Observe patient for physical evidence of health
- 2.6.4 Ask patient to describe chief complaint
- 2.6.5 Record chief complaint (date of onset, intensity, duration, severity, location, etc.)
- 2.6.6 Record patient information obtained from interview and observations

Competency 2.7 Perform a routine patient workup

Competency Builders:

- 2.7.1 Check visual acuity (distance and near, corrected and uncorrected)
- 2.7.2 Use an automated refractor
- 2.7.3 Neutralize current eyeglass prescription
- 2.7.4 Perform manifest refraction
- 2.7.5 Check vital signs
- 2.7.6 Check muscles for imbalance (cross cover, covered/uncovered, motility)
- 2.7.7 Check pupil size, constriction and APD
- 2.7.8 Check confrontation visual field
- 2.7.9 Check intraocular pressure (tonopen, applanation)
- 2.7.10 Check angles to determine depth
- 2.7.11 Instill drops (numbing and dilating)
- 2.7.12 Determine need for additional specialty tests
- 2.7.13 Document all results

Competency 2.8 Perform specialty tests

Competency Builders:

- 2.8.1 Perform a pinhole test
- 2.8.2 Perform a super pinhole test
- 2.8.3 Check Amsler Grid
- 2.8.4 Perform BAT test
- 2.8.5 Perform stereopsis test
- 2.8.6 Perform an Ishihara test
- 2.8.7 Perform a Humphrey visual field (A)
- 2.8.8 Perform an Ocular Coherence Tomography (A)
- 2.8.9 Perform an A and B scan (A)
- 2.8.10 Perform a Schirmer Test
- 2.8.11 Perform Fundus Photography (A)
- 2.8.12 Perform Fluorescein Angiography (A)
- 2.8.13 Perform Orbscans/Cornealtopography
- 2.8.14 Perform Pachymetry
- 2.8.15 Perform keratometry

Competency 2.9 Adhere to professional ethics

Competency Builders:

- 2.9.1 Maintain confidentiality
- 2.9.2 Handle files in an ethical and secure manner
- 2.9.3 Determine the need to destroy confidential information
- 2.9.4 Destroy documents using appropriate protocol
- 2.9.5 Report incidents as necessary to the appropriate entity
- 2.9.6 Discuss only appropriate information with patient

Competency 2.10 Communicate effectively with other team members, customers, and patients

Competency Builders:

- 2.10.1 Apply professional protocol when answering the phone
- 2.10.2 Triage telephone calls
- 2.10.3 Communicate in email with a professional manner
- 2.10.4 Communicate verbally in a proper tone and level of speech for the situation
- 2.10.5 Listen to customers/patients to determine their wants/needs and concerns
- 2.10.6 Ask open ended questions to give the client some guidance, without leading them to a conclusion

Competency 2.11 Schedule appointments

Competency Builders:

- 2.11.1 Determine length of visit
- 2.11.2 Follow office procedures to deal with no-shows

- 2.11.3 Schedule emergency appointments in such a way as to minimize disruption of other scheduled appointments
- 2.11.4 Record appointments accurately and promptly
- 2.11.5 Apply office software to record appointments

Competency 2.12 Maintain currency in occupational standards and regulating agency requirements

Competency Builders

- 2.12.1 Maintain HIPPA Training
- 2.12.2 Adhere to HIPPA Guidelines
- 2.12.3 Maintain staff OSHA training and testing
- 2.12.4 Follow OSHA regulations and protocol for the workplace
- 2.12.5 Review updates as they are available

Unit 3 In Office Procedures

Competency 3.1 Obtain informed consent

Competency Builders:

- 3.1.1 Read the consent form
- 3.1.2 Explain risks, benefits, and alternatives of procedure
- 3.1.3 Obtain patient's signature on consent form
- 3.1.4 Review preoperative and post operative instructions with patient
- 3.1.5 Identify anesthesia and results/implications/cautionary measures, etc.

Competency 3.2 Set up the procedure room

Competency Builders:

- 3.2.1 Identify the purpose and type of various equipments and instruments
- 3.2.2 Set out appropriate instruments for the procedure
- 3.2.3 Set up the appropriate equipment for procedure
- 3.2.4 Set out proper medication
- 3.2.5 Identify the patient as correct for the scheduled procedure

Competency 3.3 Assist the Ophthalmologist in the procedure

Competency Builders:

- 3.3.1 Follow doctor's request during the procedure
- 3.3.2 Care for the patient's needs during the procedure
- 3.3.3 Insert and remove the lens
- 3.3.4 Assist patient out of the procedure room
- 3.3.5 Review post operative instructions with the patient

Competency 3.4 Break down the procedure room

Competency Builders:

- 3.4.1 Dispose of sharps properly
- 3.4.2 Dispose of soiled materials in the proper biohazard containers
- 3.4.3 Disinfect the procedure room
- 3.4.4 Apply Aseptic Techniques (Sterilize the instruments)
- 3.4.5 Secure the room

Competency 3.5 Assist with ocular injuries and emergencies

Competency Builders:

- 3.5.1 Identify situations that qualify as an emergency
- 3.5.2 Identify ocular injuries
- 3.5.3 Explain foreign bodies
- 3.5.4 Define indications of contusions
- 3.5.5 Describe indications of lacerations
- 3.5.6 Discuss chemical injuries
- 3.5.7 Identify first aid actions
- 3.5.8 Explain procedures for an emergency

Unit 4 Diseases and Disorders

Competency 4.1 Identify the signs and symptoms of common ocular diseases/disorders

Competency Builders:

- 4.1.1 Recognize the signs and symptoms of Glaucoma
- 4.1.2 Recognize the signs and symptoms of Cataracts
- 4.1.3 Recognize the signs and symptoms of Macular Degeneration
- 4.1.4 Recognize the signs and symptoms of Diabetic retinopathy
- 4.1.5 Recognize the signs and symptoms of Retinal detachment
- 4.1.6 Recognize the signs and symptoms of Dry eye syndrome

Competency 4.2 Identify the signs and symptoms of systemic diseases and treatments that affect the eye

Competency Builders:

- 4.2.1 Relate the effects of Diabetes to the eye
- 4.2.2 Relate the effects of Herpes to the eye
- 4.2.3 Relate the effects of Shingles to the eye
- 4.2.4 Relate the effects of auto immune diseases to the eye
- 4.2.5 Relate the effects of HIV to the eye
- 4.2.6 Relate the effects of MS to the eye
- 4.2.7 Relate the effects of Thyroid disorder to the eye
- 4.2.8 Relate the effects of Hypertension to the eye
- 4.2.9 Relate the effects of High Cholesterol to the eye
- 4.2.10 Relate the effects of medications to the eye

Unit 5 Pharmacology

Competency 5.1 Identify topical medications

Competency Builders:

- 5.1.1 Match color of top with name and purpose of the medication
- 5.1.2 Apply the appropriate medication to a given situation based on tolerance, toxicity, stability, penetration and sterility requirements
- 5.1.3 Identify effects and duration of medication

Competency 5.2 Identify key systemic medications

Competency Builders:

- 5.2.1 Recognize the drugs associated with diseases that will affect the eye
- 5.2.2 Identify specialized testing needed

Competency 5.3 Manage prescriptions

Competency Builders:

- 5.3.1 Write prescriptions
- 5.3.2 Read prescriptions
- 5.3.3 Refill prescriptions
- 5.3.4 Call in prescriptions to pharmacy
- 5.3.5 Record prescriptions on patient chart
- 5.3.6 Dispense appropriate samples

Competency 5.4 Assess pharmacological effects of various medications

Competency Builders:

- 5.4.1 List alternative routes of medication
- 5.4.2 Explain the use of various injections including the purpose and situation for which each may be considered
- 5.4.3 Identify signs of complications and side effects to locally administered drugs

Unit 6 Ocular

Competency 6.1 Examine contact lens patients

Competency Builders:

- 6.1.1 Evaluate the fit of soft and rigid contact lenses
- 6.1.2 Identify types of contact lenses
- 6.1.3 Determine a well-fit lens
- 6.1.4 Over-refract a contact lens
- 6.1.5 Match lens care and storage solutions with the proper contact lens material

Competency 6.2 Read and interpret a contact lens prescription

Competency Builders:

- 6.2.1 Transpose glass prescription to contacts
- 6.2.2 Identify base curve and diameter

Competency 6.3 Recognize symptomatology of adverse contact lens wear

Competency Builders:

- 6.3.1 Examine eye under Slit lamp
- 6.3.2 Observe corneal staining

Competency 6.4 Assist in application of contact lenses

Competency Builders:

- 6.4.1 Use appropriate terminology related to contact lenses
- 6.4.2 Describe the instruments used for the verification of lens parameters
- 6.4.3 Describe/Identify the instruments used in the evaluation and fitting of contact lenses
- 6.4.4 Assist customer with insertion and removal of contact lenses
- 6.4.5 Identify the indications and contraindications for fitting rigid and soft contact lenses
- 6.4.6 Describe the uses of contact lens solutions
- 6.4.7 Initiate accurate records according to office procedures
- 6.4.8 Explain the optical correction of ametropias with contact lenses
- 6.4.9 Relate the correct protocol for care and wear of contact lens (contact lens solutions, care procedures, wearing schedules, follow-up schedules, etc.)

Competency 6.5 Identify surgical alternatives

Competency Builders:

- 6.5.1 Define radial keratotomy
- 6.5.2 Define Photorefractive Keratectomy
- 6.5.3 Define automated Lamellar Keratotomy
- 6.5.4 Define laser-assisted in Situ Keratomileusis
- 6.5.5 Discuss challenges of contact lens for the refractive patient

Competency 6.6 Use the atlas of complications

Competency Builders:

- 6.6.1 Use arcuate staining
- 6.6.2 Define corneal ulcer and vascularization
- 6.6.3 Define giant papillary conjunctivitis
- 6.6.4 Define microcysts

Competency 6.7 Apply appropriate measurements and terminology

Competency Builders:

- 6.7.1 Identify standard abbreviations and optical terms

- 6.7.2 Apply the metric system
- 6.7.3 Relate diopters to optic variances

Competency 6.8 Calculate the results of various powers in lenses

Competency Builders:

- 6.8.1 Calculate power in oblique meridians
- 6.8.2 Define vertex distance and effective power
- 6.8.3 Calculate compensation power

Competency 6.9 Apply use of prism

Competency Builders:

- 6.9.1 Define a variety of prisms
- 6.9.2 Explain prism power
- 6.9.3 Discuss Prentice's Rule
- 6.9.4 Determine prismatic effects
- 6.9.5 Apply ANSI standards for prism
- 6.9.6 Calculate Induced prism and Bas Orientation

Competency 6.10 Identify various lens types and materials

Competency Builders:

- 6.10.1 Determine the advantages and disadvantages of each
- 6.10.2 Determine the uses for each

Competency 6.11 Determine Near Additions

Competency Builders:

- 6.11.1 Determine appropriate choice of multifocal types
- 6.11.2 Add powers
- 6.11.3 Determine total reading power
- 6.11.4 Determine intermediate power

Competency 6.12 Determine progressive addition lenses

Competency Builders:

- 6.12.1 Identify basic PAL characteristics
- 6.12.2 Explain the advantages and disadvantages of PAL's

Competency 6.13 Follow standard alignment procedures

Competency Builders:

- 6.13.1 Define standard alignment
- 6.13.2 Apply standard alignment to plastic frames
- 6.13.3 Apply standard alignment to metal frames
- 6.13.4 Apply standard alignment to rimless and semi-rimless frames

Unit 7 Professional Role and Development

Competency 7.1 Seek employment

Competency Builders:

- 7.1.1 Plan your career
- 7.1.2 Locate employers
- 7.1.3 Write a letter of application and resume
- 7.1.4 Prepare for an interview
- 7.1.5 Negotiate with employer when receiving a job offer if appropriate

Competency 7.2 Maintain continuing education requirements

Competency Builders:

- 7.2.1 Locate continuing education opportunities
- 7.2.2 Identify additional certifications available
- 7.2.3 Participate in professional societies
- 7.2.4 Read professional journals

E.....mployability Competencies

Employability Competencies are underlying skills, including work habits and ethics, essential to the workplace and personal growth. SCANS (Secretary’s Commission on Achieving Necessary Skills) are the basis for these competencies and are included in all programs based on an ACAP (Austin Competency Analysis Profile). These skills are taught with the intention of providing the student with a well-rounded understanding of workplace expectations in areas not specific to a particular occupation, in an attempt to develop a valuable employee.

ACAP: Ophthalmic Assistant

Unit 1:	Resources
Unit 2:	Interpersonal
Unit 3:	Information
Unit 4:	Systems
Unit 5:	Technology
Unit 6:	Basic Skills
Unit 7:	Thinking Skills
Unit 8:	Personal Qualities

Unit 1: Resources

Competency 1.1 Manage time effectively

Competency Builders:

- 1.1.1 Select relevant, goal-related activities
- 1.1.2 Rank activities in order of importance
- 1.1.3 Allocate time to activities
- 1.1.4 Identify tasks to be completed
- 1.1.5 Develop and follow an effective, workable schedule based on accurate estimates of such things as importance of tasks, time to complete tasks, time available for completion, and task deadlines, without wasting time
- 1.1.6 Identify possible impact of schedules on other activities
- 1.1.7 Evaluate and adjust a schedule

Competency 1.2 Manage money effectively

Competency Builders:

- 1.2.1 Prepare or use budgets including making cost and revenue forecasts
- 1.2.2 Record details to track budget performance
- 1.2.3 Adjust budget appropriately when needed
- 1.2.4 Allocate money to include accurately preparing and using a budget according to a consistent and orderly accounting method
- 1.2.5 Calculate future budgetary needs based on projected costs and revenues
- 1.2.6 Track the extent to which actual costs and revenues differ from the estimated budget, and take appropriate and effective action

Competency 1.3 Manage material and facility resources effectively

Competency Builders:

- 1.3.1 Store resources such as materials, supplies, parts, equipment, space or final products in an order that makes the best use of them
- 1.3.2 Allocate materials and facility resources to include carefully planning the steps involved in the acquisition, storage, and distribution of resources
- 1.3.3 Acquire, transport, and store material and facility resources safely and efficiently
- 1.3.4 Maintain material and facility resources in good condition
- 1.3.5 Distribute material and resources to the end user

Competency 1.4 Manage human resources efficiently

Competency Builders:

- 1.4.1 Assess people's knowledge, skills and potential
- 1.4.2 Identify present and future work load
- 1.4.3 Match individual talents and workload effectively
- 1.4.4 Monitor performance and provide feedback actively

Unit 2: Interpersonal Skills

Competency 2.1 Participate as a member of a team

Competency Builders:

- 2.1.1 Work cooperatively with others
- 2.1.2 Contribute to group with ideas, suggestions, and efforts
- 2.1.3 Complete personal share of tasks necessary to complete a project
- 2.1.4 Encourage team members by listening and responding appropriately to their contributions
- 2.1.5 Build on individual team members' strengths
- 2.1.6 Resolve differences for the benefit of the team
- 2.1.7 Take personal responsibility for accomplishing goals
- 2.1.8 Challenge existing procedures, policies, or authorities responsibly

Competency 2.2 Teach others

Competency Builders:

- 2.2.1 Coach or otherwise teach others to apply related concepts and theories to tasks
- 2.2.2 Convey job information to allow others to see its applicability and relevance to tasks
- 2.2.3 Identify training needs of others
- 2.2.4 Assess performance of others
- 2.2.3 Provide feedback on others' performance in a constructive manner
- 2.2.4 Provide solutions to observed problems

Competency 2.3 Serve clients/customers

Competency Builders:

- 2.3.1 Identify customers/clients expectations through surveys, questions, body language, or expressions
- 2.3.2 Communicate and work with clients/customers to satisfy their expectations
- 2.3.3 Listen actively to customers to avoid misunderstanding and to identify needs
- 2.3.4 Provide alternatives to clients/customers to satisfy their expectations
- 2.3.5 Provide services and goods in a timely, positive manner
- 2.3.6 Obtain additional resources to satisfy client needs efficiently

Competency 2.4 Exercise leadership

Competency Builders:

- 2.4.1 Communicate thoughts, feelings, and ideas to justify a position
- 2.4.2 Motivate and/or convince individuals or groups through encouragement or persuasion
- 2.4.3 Challenge existing procedures, policies or authorities responsibly
- 2.4.4 Use rules/values followed by others
- 2.4.5 Justify a position logically and appropriately
- 2.4.6 Consider minority viewpoints in making decisions or taking action

Competency 2.5 Negotiate to arrive at a decision

Competency Builders:

- 2.5.1 Achieve agreement through exchanging specific resources or resolving divergent interests
- 2.5.2 Research opposition and the history of the conflict
- 2.5.3 Set realistic, obtainable goals
- 2.5.4 Present facts and arguments
- 2.5.5 Listen to and reflect upon what has been said
- 2.5.6 Clarify problems and resolve conflicts
- 2.5.7 Propose and examine possible options
- 2.5.8 Make reasonable compromises

Competency 2.6 Work with cultural diversity

Competency Builders:

- 2.6.1 Work with men and women, and a variety of ethnic, social and educational backgrounds
- 2.6.2 Compare one's own culture and that of others
- 2.6.3 Respect the rights of others while helping them make cultural adjustments when necessary
- 2.6.4 Base impression upon individual performance, not stereotypes
- 2.6.5 Understand concerns of members of other ethnic and gender groups

Unit 3: Information

Competency 3.1 Acquire and evaluate information

Competency Builders:

- 3.1.1 Pose analytic questions to determine specific information needs
- 3.1.2 Select appropriate information sources
- 3.1.3 Determine when new information must be created and do so
- 3.1.4 Evaluate data for relevance and accuracy

Competency 3.2 Organize and maintain information

Competency Builders:

- 3.2.1 Organize a variety of information forms or sources in a systemic fashion
- 3.2.2 Maintain written or other forms of information to keep up-to-date information available in a systemic fashion
- 3.2.3 Organize information from computer, visual, oral and physical sources in readily accessible formats, such as computerized data bases, spreadsheets, microfiche, video disks, paper files, etc.
- 3.2.4 Transform data into different formats in order to organize them by the application of various methods such as sorting, classifying, or more formal methods

Competency 3.3 Interpret and communicate information

Competency Builders:

- 3.3.1 Select information to be communicated
- 3.3.2 Identify best methods to present information (e.g., overheads, handouts, etc.)
- 3.3.3 Communicate results to others in desired format
- 3.3.4 Convey information to others through a variety of means including oral, written, graphic, pictorial or multi-media methods

Competency 3.4 Process information using computer

Competency Builders:

- 3.4.1 Acquire information from the internet and other computer based resources
- 3.4.2 Organize information, using spreadsheets, word processor, and data bases effectively
- 3.4.3 Analyze information to identify trends, make projections, etc.
- 3.4.4 Enter, modify, retrieve, store and verify data and other information in a computer
- 3.4.5 Choose format for display (e.g., line graphs, bar graphs, tables, pie charts, narrative)
- 3.4.6 Convey information into the chosen format
- 3.4.7 Communicate information using e-mail, list serves, word processor, or other computer based communication functions

Unit 4: Systems

Competency 4.1 Apply appropriate techniques to function within social, organizational, and technological systems to attain goals effectively and ethically

Competency Builders:

- 4.1.1 Identify dynamics and components of social, organizational and technological systems
- 4.1.2 Recognize acceptable behavior and attitudes within social, organizational and technological systems
- 4.1.3 Communicate through acceptable methods to interact with social, organizational, and technological systems effectively, efficiently, and ethically
- 4.1.4 Recognize how a system's structures relate to goals
- 4.1.5 Recognize the right of people to ask for information and where to get resources

Competency 4.2 Monitor and correct performance of a system

Competency Builders:

- 4.2.1 Distinguish trends
- 4.2.2 Predict impact of actions on system operations
- 4.2.3 Diagnose deviations in the function of a system/organization
- 4.2.4 Correct performance through necessary action
- 4.2.5 Detect deviations from systems intended purpose
- 4.2.6 Troubleshoot the system
- 4.2.7 Make changes to the system to rectify system function and to ensure quality of product

Competency 4.3 Improve and design systems

Competency Builders:

- 4.3.1 Make suggestions to modify or improve existing products or services
- 4.3.2 Implement approved improvements in systems
- 4.3.3 Evaluate the benefits of the improvements
- 4.3.4 Develop/recommend new or alternative system designs based on relevant feedback
- 4.3.5 Communicate the results of the evaluations

Unit 5: Technology

Competency 5.1 Select appropriate technology

Competency Builders:

- 5.1.1 Determine the desired results or outcomes and applicable restraints
- 5.1.2 Visualize the necessary methods and applicable technology
- 5.1.3 Evaluate specifications
- 5.1.2 Judge which procedures, tools, machines or programs will produce the desired results

Competency 5.2 Apply technology to task

Competency Builders:

- 5.2.1 Set up tools such as machines, computers, and programming systems, using proper procedures, to get desired results
- 5.2.2 Analyze how different parts of machines interact and how machines interact with broader production systems
- 5.2.3 Install machines including computers
- 5.2.4 Interpret machine output accurately
- 5.2.5 Detect errors from program output

Competency 5.3 Maintain and troubleshoot technology

Competency Builders:

- 5.3.1 Prevent problems in machines, computers, and other technologies
- 5.3.2 Identify problems in machines, computers and other technologies
- 5.3.3 Perform routine maintenance and service of machines, computers, and other technologies
- 5.3.4 Detect more serious problems
- 5.3.5 Generate workable solutions to correct deviations
- 5.3.6 Recognize need for additional help

Unit 6: Basic Skills

Competency 6.1 Read written information in prose and documents, such as manuals, graphs, and schedules with understanding

Competency Builders:

- 6.1.1 Determine the main idea or essential message
- 6.1.2 Identify relevant details, facts, and specifications
- 6.1.3 Infer or locate the meaning of unknown or technical vocabulary
- 6.1.4 Judge the accuracy, appropriateness, style, and plausibility of reports, proposals, or theories of other writers

Competency 6.2 Communicate thoughts, ideas, information, and messages in writing

Competency Builders:

- 6.2.1 Record information completely and accurately
- 6.2.2 Compose and create documents such as letters, directions, manuals, reports, proposals, graphs, and flow charts
- 6.2.3 Use language, style, organization and format appropriate to the subject matter, purpose, and audience
- 6.2.3 Include supporting documentation where appropriate
- 6.2.4 Attend to level of detail
- 6.2.5 Check, edit, and revise for correct information, appropriate emphasis, form, grammar, spelling, and punctuation

Competency 6.3 Perform arithmetic computations and concepts with appropriate technology and/or paper and pencil to solve simple work problems

Competency Builders:

- 6.3.1 Perform basic computations
- 6.3.2 Use basic numerical concepts such as whole numbers and percentages in practical situations
- 6.3.3 Make reasonable estimates of arithmetic results without a calculator
- 6.3.4 Use tables, graphs, diagrams, and charts to obtain or convey quantitative information

Competency 6.4 Perform mathematics in a variety of techniques to approach practical problems appropriately

Competency Builders:

- 6.4.1 Choose appropriate technique to solve problem
- 6.4.2 Use quantitative data to construct logical explanations for real world situations

- 6.4.3 Express mathematical ideas and concepts orally and in writing
- 6.4.4 Predict an event considering the role of chance in the occurrence

Competency 6.5 Listen and react appropriately to verbal messages

Competency Builders:

- 6.5.1 Receive, attend to, interpret, and respond to verbal messages appropriately
- 6.5.2 Receive, attend to, interpret, and respond to other cues such as body language appropriately
- 6.5.3 Listen to comprehend, learn, critically evaluate, appreciate, or support the speaker

Competency 6.6 Deliver oral messages appropriately to listeners

Competency Builders:

- 6.6.1 Organize ideas and communicates orally as appropriate for the situation and listeners
- 6.6.2 Participate in conversation, discussion, and group presentations
- 6.6.3 Select an appropriate medium for conveying a message
- 6.6.4 Use verbal language and other cues, such as body language, in a way appropriate in style, tone, and level of complexity to the audience and the occasion
- 6.6.5 Speak clearly and communicate a message
- 6.6.6 Respond to listener feedback in a way that indicates understanding
- 6.6.7 Ask questions when needed

Unit 7: Thinking Skills

Competency 7.1 Generate new ideas using creative thinking

Competency Builders:

- 7.1.1 Change or reshapes goals using nonlinear or unusual connections
- 7.1.2 Imagine new ideas by combining ideas or information in new ways
- 7.1.3 Connects seemingly unrelated ideas
- 7.1.4 Reshape goals in ways that reveal new possibilities

Competency 7.2 Make decisions

Competency Builders:

- 7.2.1 Specify goals and constraints
- 7.2.2 Generate alternatives
- 7.2.3 Consider risks
- 7.2.4 Evaluate and choose best alternatives

- 7.2.5 Analyze how personal, family, and social factors influence decisions, behaviors, and lifestyles
- 7.2.6 Utilize a decision-making process to develop future career goals

Competency 7.3 Apply problem solving skills appropriate to situation

Competency Builders:

- 7.3.1 Recognize a problem exists (i.e., that there is a discrepancy between what is and what should be)
- 7.3.2 Identify possible reasons for the problem
- 7.3.3 Devise and implement a plan of action to resolve the problem
- 7.3.4 Evaluate and monitor progress
- 7.3.5 Revise the plan as indicated by the findings
- 7.3.6 Communicate in both oral and written language while working with others to identify/resolve problems
- 7.3.7 Reason inductively and deductively to solve problems
- 7.3.8 Select and apply problem-solving methods

Competency 7.4 See things in the mind's eye

Competency Builders:

- 7.4.1 Organize and process symbols, pictures, graphs, objects or other information to visualize actual representation (such as a building from blueprints)
- 7.4.2 Visualize possible options
- 7.4.3 Communicate visualized options verbally

Competency 7.5 Apply learning strategies to support life-long learning

Competency Builders:

- 7.5.1 Apply and adapt existing and new knowledge and skills, using learning techniques, in both familiar and changing situations
- 7.5.2 Evaluate learning style (visual, aural, etc.) to make proper selection of learning techniques
- 7.5.3 Identify various learning techniques including formal learning strategies (note taking or clustering items that share some characteristics) and informal learning strategies (awareness of unidentified false assumptions that may lead to faulty conclusions)
- 7.5.4 Make decisions/plans concerning school to work training and future educational needs using relevant resources

Competency 7.6 Apply reasoning to finding solutions or draw conclusions

Competency Builders:

- 7.6.1 Discover a rule or principle underlying the relationship between two or more objects
- 7.6.2 Extract rules or principles from a set of objects or a written text
- 7.6.3 Apply principles to solve problems

- 7.6.4 Draw conclusion from available information using logic
- 7.6.5 Apply rules and principles to a new situation
- 7.6.6 Determine which conclusion is correct when given a set of facts and conclusions
- 7.6.7 Evaluate alternatives and assess consequences to achieve personal and social goals

Unit 8: Personal Qualities

Competency 8.1 Act responsibly

Competency Builders:

- 8.1.1 Persevere toward goal attainment with a high level of effort
- 8.1.2 Set high standards in order to become excellent at doing tasks by setting high standards, paying attention to details, working well and displaying a high level of concentration even when assigned an unpleasant task
- 8.1.3 Display a high standard of attendance, punctuality, enthusiasm, vitality, and optimism in approaching and completing tasks

Competency 8.2 Exhibit effective self-esteem

Competency Builders:

- 8.2.1 Maintain a positive view of self and believes in own self-worth
- 8.2.2 Identify own skill and abilities possessed
- 8.2.3 Recognize own emotional capacity and needs
- 8.2.4 Identify/Apply effective ways to handle emotional capacity and needs
- 8.2.5 Recognize own impression on others

Competency 8.3 Employ appropriate social skills

Competency Builders:

- 8.3.1 Demonstrate understanding, friendliness, adaptability, empathy and politeness in new and on-going group settings
- 8.3.2 Assert self in familiar and unfamiliar social situations
- 8.3.3 Relate well to others
- 8.3.4 Respond appropriately as the situation requires
- 8.3.5 Take an interest in what others say and do

Competency 8.4 Manage self

Competency Builders:

- 8.4.1 Assess own knowledge, skills, and abilities accurately
- 8.4.2 Set well-defined and realistic personal goals
- 8.4.3 Monitor progress toward goal attainment
- 8.4.4 Motivate self through goal achievement
- 8.4.5 Exhibit self-control and respond to feedback unemotionally and nondefensively
- 8.4.6 Initiate action

Competency 8.5 Apply integrity and honesty to all matters

Competency Builders:

- 8.5.1 Recognize situations when faced with making a decision or exhibiting behavior that may break with commonly held personal or societal values
- 8.5.2 Understand the impact of violating these beliefs and codes on an organization, self, and others
- 8.5.3 Choose an ethical course of action

WorkKeys® Process Overview

Developed by American College Testing (ACT), the purpose of the Job Profiling process is to identify the level of applied academic skills that, according to business and industry, students must master to qualify for and be successful in their occupation of choice. The results of Job Profile “leveling” can help teachers to better target instruction toward their students’ needs.

The WorkKeys component, developed by ACT, measures students’ applied academic skills. These academic skills include Applied Mathematics, Locating Information, Reading for Information, Listening, Writing, Teamwork, Observation, and Applied Technology. It is determined during the profile which skills apply to the specific job or occupational area.

The ACAP (Austin Competency Analysis Profile) typically includes one or more of the skills described below. A fourth skill may be identified and included if the subject matter experts agree that it is necessary for entry into the position.

- *Applied Mathematics* measures students’ ability to analyze, set-up, and solve math problems typically found in the workplace.
- *Locating Information* measures students’ ability to use graphic documents to insert, extract, and apply information (includes charts, graphs, tables, forms, blueprints, maps, and instrument gauges).
- *Reading for Information* measures students’ ability to read and understand work-related reading materials (text only—does not include charts, graphs, tables, forms, blueprints, maps, or instrument gauges).

Each WorkKeys assessment is further broken down into four to five levels of achievement, with higher numbers indicating higher achievement in the assessed skill. For each academic skill, the Job Profiling process identifies the level required for successful entry into an occupational area as identified by subject matter experts.

ACT WorkKeys® Skill Levels

<u>Skill Area and Rank</u>	<u>Entry Level</u>	<u>Performance Level</u>
1) Reading for Information	3	3
2) Applied Mathematics	2	2
3) Locating Information	2	2

Entry Level

Refers to the requirements necessary for someone entering into the occupation (without previous on-the-job experience).

Performance Level

Refers to the level at which an employee would need to function effectively having gained on-the-job knowledge.

Skill Ranking

Refers to the criticality of the skill to the performance of the occupation with the most critical skill indicated with one (1) and higher numbers indicating lower criticality.

Levels of WorkKeys® Defined

The skills needed to achieve each level for WorkKeys academic skills identified in this profile are as follows:

Reading for Information

Reading for Information measures skill in reading and understanding work-related reading materials. There are five levels of complexity, 3 through 7, with Level 3 being the least complex and Level 7 the most complex. Although Level 3 is the least complex, it still represents a level of reading skill well above “no skill at all.” The levels build on each other, each incorporating the skills at the preceding levels.

Level 3

- Identify uncomplicated key concepts and simple details.
- Recognize the proper placement of a step in a sequence of events, or the proper time to perform a task.
- Identify the meaning of words that are defined within a passage.
- Identify the meaning of simple words that are not defined within a passage.
- Recognize the application of instructions, from a passage to situations that are described in the passage.

Level 4

- Identify details that are more subtle than those in Level 3.
- Recognize the application of more complex instructions, some of which involve several steps, to described situations.
- Recognize cause-effect relationships.

Level 5

- Understand the paraphrased definition of specialized words or phrases (jargon or technical terms) defined in these reading materials.
- Use jargon or technical terms appropriately in describing situations stated in these reading materials.
- Understand the meaning of acronyms defined in these reading materials (an acronym is a work or collection of letters which stands for a longer phrase, such as HMO to mean Health Maintenance Organization).
- Figure out which definition of a word with multiple meanings is appropriate in the context of these reading materials.
- Apply information given in these reading materials to situations that are not directly described, but similar.
- Apply instructions or procedures with a number of steps to described situations. These instructions may include conditional (if X happens, then you should do Y).

Level 6

- Recognize the application of jargon or technical terms to new situations.
- Recognize the application of complex instructions to new situations.
- Recognize the less-common meaning of a word with multiple meanings from context.
- Generalize from a passage to situations not described in the passage.
- Identify implied details.
- Explain the rationale behind a procedure, policy, or communication.
- Generalize from a passage to a somewhat similar situation.

Level 7

- Recognize the definitions of difficult, uncommon jargon or technical terms from context.
- Generalize from a passage to situations neither described in nor completely similar to those in a passage.

Applied Mathematics

Applied Mathematics measures skill in applying mathematical reasoning to work-related problems. There are five levels of complexity, 3 through 7, with Level 3 being the least complex and Level 7 the most complex. The levels build on each other, each incorporating the skills at the preceding levels.

Level 3

- Perform basic mathematical operations (addition, subtraction, multiplication, and division) and conversions from one form to another, using whole numbers, fractions, decimals, or percentages.
- Translate simple verbal problems into mathematical equations.
- Directly apply logical information provided to solve problems, including those with measurements and dollars and cents.

Level 4

- Perform one or two mathematical operations (such as addition, subtraction, or multiplication) on several positive or negative numbers. (Division of negative numbers is not covered until Level 5.)
- Add commonly known fractions, decimals, or percentages (e.g., $\frac{1}{2}$, .75, 25%) or add three fractions that share a common denominator.
- Calculate averages, simple ratios, proportions, and rates, using whole numbers and decimals.
- Reorder verbal information before performing calculations.
- Read simple charts or graphs to obtain information needed to solve a problem.

Level 5

- Look up and calculate single-step conversions within English or non-English measurement systems (e.g., converting ounces to pounds or centimeters to meters) or between measurement systems (e.g., converting centimeters to inches).
- Make calculations using mixed unit (e.g., hours and minutes).
- Determine what information, calculations, and unit conversions are needed to find a solution.

Level 6

- Set up problems and do several steps of calculations or conversions.
- Calculate using negative numbers, fractions, ratios, percentages, or mixed numbers (e.g., $12 \frac{1}{8}$).
- Transpose a formula before calculating (e.g., $8X = 20 \Rightarrow X = 20/8$).
- Look up and use two formulas to change from one unit to another unit within the same system of measurement (e.g., 1 cup = 8 fl oz, 1 quart = 4 cups).
- Find mistakes in calculations, such as those required in lower levels.
- Determine the best deal and perform a further calculation with the result.

Level 7

- Solve problems requiring multiple steps of logic and calculation.
- Solve problems involving more than one unknown, nonlinear functions (e.g., rate of change), and applications of basic statistical concepts (e.g., error of measurement).
- Locate errors in multiple-step calculations.
- Solve problems with unusual content or format, or with incomplete or implicit information.

Locating Information

Locating Information measures skill in using information taken from workplace graphics such as diagrams, blueprints, floor plans, tables, forms, graphs, charts, and instrument gauges. There are four levels of complexity, 3 through 6, with Level 3 being the least complex and Level 6 the most complex. The levels build on each other, each incorporating the skills at the preceding levels.

Level 3

- Find one or two pieces of information in elementary workplace graphics, such as simple order forms, bar graphs, tables, flowcharts, and floor plans.
- Fill in one or two pieces of information that are missing from elementary workplace graphics.

Level 4

- Find several pieces of information in these type of graphics.
- Summarize and/or compare information and trends in a single graphic.
- Summarize and/or compare information and trends among more than one workplace graphic, such as a bar chart and a table showing related information.

Level 5

- Summarize and/or compare information and trends in single graphic.
- Summarize and/or compare information and trends among more than one graphic, such as a bar chart and a table showing related information.

Level 6

- Make decisions, draw conclusions, and/or apply information to new situations using several related and complex workplace graphics that contain a great amount of information or have challenging presentations (e.g., very detailed graphs, charts, tables, forms, maps, blueprints, diagrams).

Glossary

ACAP–*Austin Competency Analysis Profile*–a well-established job analysis process unique to Austin Community College involving business, industry, labor, and community agency representatives from throughout the Austin area.

Advanced Competencies–the occupation and academic competencies needed to advance in a given occupation.

Competency–an observable and measurable behavior that has a definite beginning and end; can be performed within a limited amount of time; consists of two or more competency builders; and leads to a product, service, or decision.

Competency Builders–the skills, knowledge, and attitudes (written in measurable terms) needed to perform a given competency.

Core Competencies–the essential occupational and academic competencies needed to enter and remain in a given occupation.

Employability Competencies–underlying skills, abilities, and knowledge as they relate to work ethics, work habits, and personal growth and development.

Entry Level–refers to the requirements necessary for someone entering into the occupation (without previous on the job experience).

Performance Level–refers to the level at which an employee would need to function effectively having gained on-the-job knowledge.

Skill Ranking–refers to the criticality of the WorkKeys skill to the performance of the occupation with one (1) indicating the most critical skill.

SME–*Subject Matter Expert*–incumbent worker in a given occupation that is knowledgeable about the job.

Target Job Titles–titles that may be assigned to the types of jobs aligned with an ACAP. Possible titles of jobs for which students would qualify with certificates or degrees in the programs based on an ACAP.

WorkKeys Skills–Eight skills, defined by ACT, referring to underlying, academic skills as they relate to the workplace. The skills include *Applied Mathematics, Applied Technology, Locating Information, Reading for Information, Observation, Teamwork, Listening, and Writing*. Each skill has a very specific definition and levels of each skill can be aligned with specific abilities defined at each level. WorkKeys skills are the basis for an occupational analysis system developed by ACT. The WorkKeys analysis is the final part of the overall ACAP report. All ACAPs include *Reading for Information, Locating Information, and Applied Mathematics*. A fourth skill may be included in the profile if the subject matter experts identify a need for it.
